

GLIDE RITE®

**Air Master
Automatic Premium**

IVECO

Ford

FIAT

Your ride height. Automatically controlled.

Height-controlled semi-air suspension with three selectable presets and independent left and right adjustment.

AUTOMATIC

Height sensors help maintain your selected ride height

THREE PRESETS

Low, middle and high settings configured for your vehicle

CAB CONTROL

Select a preset or adjust either side manually

Automatic height control

Select a preset and the system automatically corrects the rear ride height to the configured position. Height sensors monitor each side of the vehicle.

Three personalised presets

Low, middle and high positions are calibrated during installation. Your installer can agree suitable settings with you within the vehicle's configured safety limits.

Independent manual adjustment

Left and right arrow buttons let you raise or lower either side manually. MIN and MAX controls provide access to the calibrated minimum and maximum heights. Audible warnings indicate when configured height safety limits are exceeded.

Vehicle-specific installation

We have systems available for the Fiat Ducato, MAN TGE, Volkswagen Crafter, Renault Master IV and Mercedes-Benz eSprinter.

Air Master Premium

- Rear air bags
- Height sensors
- Compressor & valve
- Block Connection hub
